Education

United Institute of Technology,

Bachelor of Technology Artificial Intelligence and Data Science —CGPA-7.93

Nov. 2021 – May. 2025

Coimbatore, Tamilnadu

Govt Ashokapuram School,

Higher Secondary Certificate - 83.01%.

2020 – 2021

Coimbatore, Tamilnadu

Excel Matriculation Higher Secondary School,

Secondary School Leaving Certificate - 82.2%.

2018 – 2019

Coimbatore, Tamilnadu

Experience

Techvolt Software

Junior Developer (Intern)

Oct 2024 – Nov 2024

Coimbatore, Tamilnadu

- Supported senior developers in full-stack development projects, gaining hands-on experience.
- Assisted in client meetings to gather requirements and provide technical support.
- Built core skills in web development, version control, and team collaboration.

Quantum Green Technology

Python Developer (Intern)

Aug 2024 – Oct 2024

Coimbatore, Tamil Nadu

- Contributed to developing Python-based applications for data processing and automation tasks.
- Assisted in implementing backend logic using Python to support application.
- Supported IoT-based development for smart vending machines by integrating Python for system control.

Technical Skills

Web Technologies: HTML/CSS, JavaScript, Bootstrap CSS

Programming Languages: Python, SQL, SQLite

Technologies/Frameworks: Excel, Power BI, Machine Learning, Deep Learning, OpenCV, API keys, Git&GitHub.

Projects

License plate detection using YOLOv11 | *Python, YOLOv11, PaddleOCR, OpenCV, SQLite*

- * Built a license plate detection model using Python and YOLOv11, trained it with Ultralytics.
- * Applied OpenCV and Paddle OCR to successfully extract and recognize text from detected plates.
- * Improved model performance by fine-tuning YOLOv11 and enhancing image preprocessing techniques.

Virtual Painting Board with Hand Tracking | *Python, OpenCV, MediaPipe*

- * Created an interactive virtual drawing board using hand-tracking technology with MediaPipe.
- * Enabled gesture-based color selection and drawing without physical input devices.
- * Applied image processing techniques to enhance gesture detection and responsiveness.

Facial Attendance Monitoring System | *Python, OpenCV, Face Recognition, SQLite*

- * Developed an automated attendance system using facial recognition for real-time identity verification.
- * Integrated OpenCV and face recognition libraries to detect and log faces with high accuracy.
- * Stored attendance records in an SQLite database for efficient tracking and retrieval.

Research Publications

- **Journal Publication:** Accepted in IEEE Xplore (SCOPUS Indexed Journal) at the 15th International Conference on Science & Innovative Engineering (ICSIE 2025)
- Authored and presented research work focusing on applied machine learning and data-driven problem solving.
